

Lebanon Community Schools

High School Course Syllabus

Lebanon High School | Mr. Tim Helland | 2018-2019

Course Number and Title:

Web Design I

Subject Area:

Computer Technology

Credits:

Semester 1 0.5 CT or Elective Credit

Graduation Requirements:

The following Oregon Essential Skills will be addressed during this course:

x	Read and comprehend a variety of text	x	Use technology to learn, live, and work
x	Write clearly and accurately		Demonstrate civic and community engagement
	Apply mathematics in a variety of settings		Demonstrate global literacy
	Listen actively and speak clearly and coherently	x	Demonstrate personal management and teamwork skills
x	Think critically and analytically		

Prerequisites:

None

Course Overview:

As the Internet has grown in popularity, so has the need for people to create content and post information in ways that attract peoples' attention. In this course, you will learn to use HTML and CSS to create effective web pages that comply with current web standards.

In this first course of Web Design, you will:

- ❖ Evaluate existing webpages using a variety of criteria
- ❖ Use standards-compliant HTML5 to create web page content
- ❖ Format the appearance of web pages using CSS
- ❖ Understand color and its effective use
- ❖ Use hyperlinks to provide navigation within and between sites
- ❖ Include images and other media in web pages
- ❖ Include lists and tables in web pages
- ❖ Create multi-page websites with user-friendly navigation
- ❖ Consider accessibility and usability in overall web page design
- ❖ Use a visual editor to design a web page layout
- ❖ Use a Specification Document to guide webpage design

Topics of Study:

Unit 1: Intro to Web Design

About 2 weeks

- Internet
- Browsers
- URL's
- HTML Syntax and Structure
- Tags

Unit 2: HTML Content I

About 4 weeks

- Headings
- Lists
- Images
- Headings

Unit 3: CSS Basics

About 3 weeks

- Syntax
- Selectors
- Colors
- Text Formatting

Unit 4: HTML Content II

About 2 weeks

- Hyperlinks
- Tables

Unit 5: CSS Layout

About 3 weeks

- Box model
- Positioning

Unit 6: Website Design

About 4 weeks

- Design Principles
- External Stylesheets
- Multimedia
- Specification Documents
- Copyright and Ethics
- Visual Editors

TAG/ELL/Special Education Considerations:

If you desire accommodations on assignments due to an IEP or the need for more academic challenge (TAG), please talk to your teacher, and alternative assessments may be created between the teacher and student on a case by case basis. You will be pre-assessed on the knowledge and skills that you bring with you to this course. The purpose of the pre-assessment is to determine what you already know, guide instruction, and give you access to advanced and/or accelerated content when appropriate.

Formal or informal pre-assessments may include quizzes, student input and self-evaluation, placement tests, teacher observation, work samples, fist of five, thumbs up/thumbs down, and other forms of assessment. The following differentiation strategies will be used during instruction when appropriate: Enrichment, Multiple Intelligences, Acceleration, Compacting, Independent Projects, Assignment Modification, Tiered Assignments, and Student Contracts.

Supplemental Resources:

A variety of resources will be available on the following websites:

- <http://web1.timhelland.com>
- <http://www.khanacademy.org>
- <http://www.w3schools.com>
- <http://www.codecademy.com>

If you have limited Internet access, please see the teacher for an alternate method of access.

Academic Honesty Policy:

Plagiarism and cheating are unacceptable in any classroom. Students who submit work that is not their own may receive a score of zero and/or be referred to the administration for disciplinary action.

You are encouraged to help your peers understand and make progress. But, don't just give them your work. If multiple students submit work that is not sufficiently unique, the points for that work will be divided equally amongst them.

Homework Policy:

The majority of learning activities in this course are designed so that most students will complete them during the class period. If you do not complete a task during the class period you may find it necessary to complete work at home or schedule time to complete the task in the lab before or after school.

Late assignments are accepted, but will incur a 10% deduction for the first week and an additional 10% deduction thereafter. No late assignments will be accepted during the last week of the term.

Behavioral Expectations:

To maintain a positive and productive learning environment each member of our classroom agrees to:

- ❖ Respect others with words and actions.
- ❖ Be seated and ready to begin when the bell rings.
- ❖ Use spill-proof containers for beverages and leave food at the door.
- ❖ Turn off and put away cell phones and entertainment devices unless otherwise directed by the teacher.
- ❖ Clean up before leaving the classroom.
- ❖ Follow the LHS Student Handbook and Network & Internet Use policies.

Grading Policy:

Your overall letter grade is weighted as follows:

Unit Tests Unit Quizzes Core Skills Tests	40%
Labs & Assignments Projects Notebooks	50%
Final Exam	10%

You are encouraged to attempt any/all of the extra credit opportunities provided. However, extra credit may only affect your overall grade by up to 3% per district policy.

Your letter grade will be determined as follows:

A.....	90% or above
B.....	80% to 89%
C.....	70% to 79%
D.....	60% to 69%
F.....	Below 60%

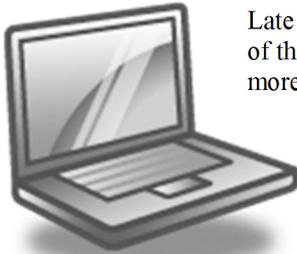

To earn a grade of C or higher, you must demonstrate basic proficiency in HTML and CSS. Each Core Skills Test must be passed with a score of **80% or higher**. Notes are not allowed for the Core Skills Tests.

If the Core Skills Tests are not passed the first time, they can be retaken up to once per week until the end of the semester.

Labs & Assignments:

Many assignments will be scored based on a detailed rubric or set of grading criteria. All other labs and assignments will earn a percentage of the total points possible. For example:

Complete & carefully attempted	100%
More than half carefully attempted	60%
Less than half carefully attempted	20%
Far from complete or insufficient effort	0%

Late assignments will lose 10% of their earned value (20% if more than a week late).

Assessments:

Unit Tests are worth 100 points each and are announced in advance. You may use your own handwritten notebook during a test. You may retake each test once after successfully completing a review activity. Your original score and retake score will be averaged.

Quizzes worth more than 10 points are announced in advance.

The *final exam* is 10% of the final grade and may include both a written and performance component.

Unless permission is granted by the teacher *in advance*, using personal electronic devices during an assessment will result in a score of 0.

Excused Absences:

When you return to school, be prepared to make up any missing work within the number of days you were absent + 1 day. For one week following this deadline there will be a 10% late penalty and 20% thereafter.

Special consideration can be made for extended absence or verified emergencies. Be sure to contact the teacher as soon as possible.

Course Goals:

- Understand the structure and syntax of the HTML and CSS languages
- Use HTML and CSS to create standards-based web pages
- Understand and apply basic web page design principles
- Analyze, critique, and evaluate website accessibility, usability, and overall quality
- Identify and use a variety of web design resources and tools

Notebook:

A notebook is required for this course. It should include all of the following:

- ❖ Cornell notes
- ❖ In-class activities
- ❖ Unit vocabulary
- ❖ Weekly reflection
- ❖ Other course materials

You will be allowed to use your written notebook on tests and quizzes. This includes the final exam. Be sure to take accurate, organized, and readable notes.

Each unannounced notebook check is worth a possible 20 points. Your score is based on possession, organization, and completeness on the day of the notebook check. Use the *Cornell Notes* system to receive full credit on your notebook.

Late notebooks will lose 10% of their earned value (20% if more than a week late).

Projects:

Projects may be assigned depending on available time. You may need to work on projects outside of class if you get behind.

Late projects will lose up to 10% of their earned value (20% if more than a week late). If you have a concern about your progress on a project, please speak with the teacher at least two days prior to the due date.

Unexcused Absences:

If you have an unexcused absence, you will not be able to makeup in-class activities. Projects or unit tests that reflect many days of learning can be made up, but will lose a portion of their value based on the number of unexcused absences affecting that unit or project.

If you are present but choose not to take a test or quiz with the class, your future score will be reduced by 10% (20% if more than a week has passed).

Contact Mr. Helland:

	Lebanon High School – Room 721
	(541) 451-8555 ext 1090
	tim.helland@lebanon.k12.or.us
	https://www.timhelland.com

Mr. Helland's Schedule:

1	Intro to Computer Science
2	Intro to Computer Science
3	3D Game Programming
4	<i>Preparation</i>
5	Intro to Computer Science
6	Intro to Computer Science
7	Web Design 1/2

Materials:

In addition to basic school materials, the following materials are strongly suggested for this course:

***3-ring or spiral notebook***

It will be turned in to the teacher at the end of each unit.

Portable or Online Storage

A USB Storage device or Google Drive account may prove useful and convenient in this course.

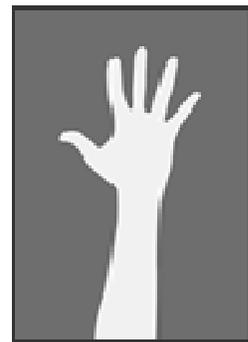

Home Computer

A computer running a modern operating system such as Windows 7 or Mac OS X may be useful if you get behind or want to explore deeper into Web Design.

I Need Help!

There are many resources available to you if you get stuck or don't understand. Some of them are:

- ❖ Your teacher
- ❖ Peer study groups
- ❖ Your teacher's website
- ❖ Resource websites
- ❖ Online videos
- ❖ Online tutorials
- ❖ Tutoring

With advance notice, the teacher reserves the right to adjust these guidelines to provide a safe and productive learning environment for all students.
